+ SATO Online Services

IoT preventative maintenance for greater reassurance

SOS is a service that makes use of IoT to monitor SATO printers at customer sites 24/7 and enable proactive servicing before issues become critical. Using it with SATO App Storage helps customers eliminate unplanned downtime and maintain stable operations for peace of mind.

Downtime due to printer errors

Cut by **86%**

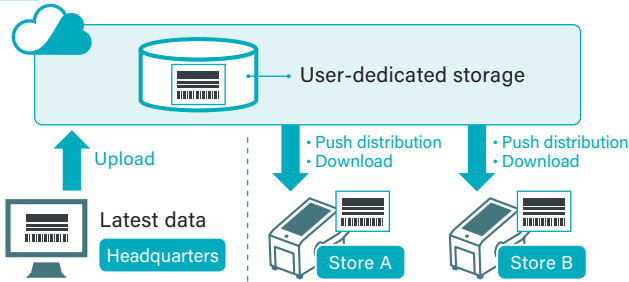

*Based on in-house estimates

Cloud-Based Data Management Service

SATO App Storage 6 features

1 Keep label data accurate for printing

- Label printing applications are managed centrally on the cloud
- Data can be updated in real time by push distribution; data updates can be scheduled to match e.g., seasonal changes, price revisions
- Applications can be downloaded automatically to SATO printers anytime, anywhere

2 Control users with different authority levels

Manage hierarchical groups

Register files

- User hierarchy and authority levels can be configured flexibly based on customer needs
- Multiple files for updating data can be uploaded easily via drag-and-drop
- CSV file types are supported for quicker uploads

3 Track downloads of applications and print log

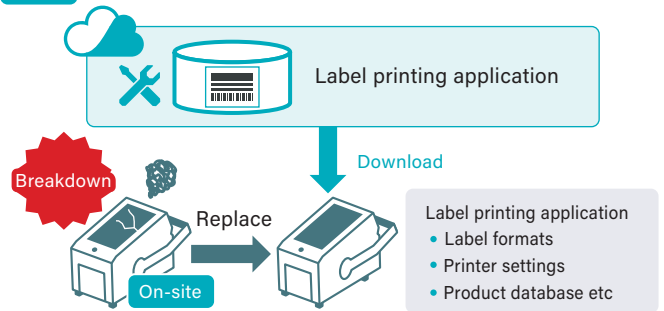

Print log can be easily retrieved for better management of best before date and food quality

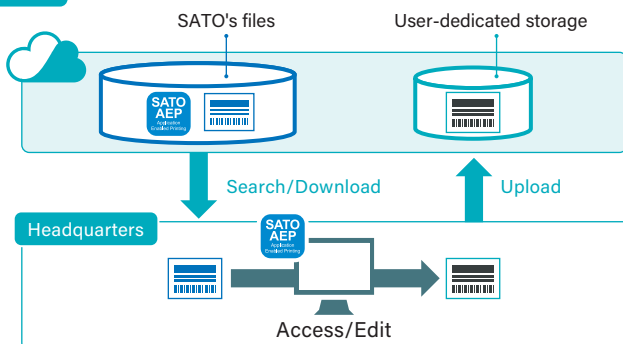

Customers can easily check if their printers on-site have the latest applications downloaded

4 Enable smooth addition or change of printers

- Label printing applications saved on the cloud can be easily downloaded and installed on newly added/replaced printers

5 Streamline printing with data provided by SATO

- SATO App Storage can be used with existing label printing applications and data formats provided by SATO

6 Ensure security

- Cloud network for proven security, safety and high availability; Best-in-class SLA performance
- Protection against DDoS attacks
- Enhanced security with SSL/HTTPS communication
- Scanning of uploaded files for virus and spyware protection

Browser requirements

Windows: Chrome, Internet Explorer 11

*User needs to register for an account to use the SATO App Storage service.

*As SATO App Storage is a best-effort cloud service, please note that connection performance may fluctuate during peak usage hours.
